

DigiPermit — Demo Registration & Permit Number Quick Reference

DigiPermit Team · Live demonstration cheat sheet

Password for **all** demo logins: `Demo@12345`
Live app: <https://mrntuli.github.io/DPermit/>

DigiPermit is a **compliance-monitoring** platform. It does not issue official visas. Passport and permit numbers are typed from real documents — for the demo we use **fictional** values that follow a simple pattern.

1. Who enters what (three steps)

Step	Who logs in	Screen	What you type
1	HR — <code>hr@acmeglobal.demo</code>	Foreign Employees	Passport, name, nationality (from passport)
2	HR	Permit Records	Permit number, dates (from visa / work permit)
3	Admin — <code>admin@digipermit.demo</code>	Users → Create	Login only — link existing employee (no permit number here)

Admin does not create permit numbers. HR must complete steps 1 and 2 first, then admin links the record for a foreign national login.

2. Creating a NEW foreign national (copy-paste examples)

Use these when registering someone **new** during the presentation (not the pre-loaded seed data).

Step 1 — HR: Register employee

Menu: Foreign Employees → Add

Field	Type this
Full name	Demo Employee One
Passport number	FN20260001
Nationality	Nigerian
Email	demo.employee1@demo.mail
Type	Employee

Passport rule: any unique value, e.g. FN + year + sequence (FN20260002 for a second person).

Step 2 — HR: Capture work visa

Menu: Permit Records → Add → select **Demo Employee One**

Field	Type this
Permit type	General work visa
Permit number	WP-2026-ACME-101
Passport number	Fills automatically when you pick the employee
Issue date	2025-01-01
Expiry date	2027-12-31

Permit number pattern (easy to remember):

WP-2026-ACME-101

- WP = work permit
- 2026 = year
- ACME = employer (Acme Global)
- 101 , 102 , 103 = person number

QR code (auto-generated): DIGIPERMIT:WP-2026-ACME-101

Step 3 — Admin: Create login

Menu: Users → Create

Field	Type this
Full name	Demo Employee One
Email	demo.employee1@demo.mail
Password	Demo@12345
Role	Foreign national
Organisation	Acme Global
Link record	Demo Employee One · FN20260001

Second new person (optional)

Field	Person 2
Passport	FN20260002
Permit number	WP-2026-ACME-102
Email	demo.employee2@demo.mail

One line for lecturers

"We capture passport and permit details from physical immigration documents; today we use fictional references such as FN20260001 and WP-2026-ACME-101."

3. Pre-loaded demo data (already in the system)

Demo logins

Role	Email
System Admin	admin@digipermit.demo
Employer HR	hr@acmeglobal.demo
Foreign National (James)	james.okonkwo@demo.mail
Foreign National (Priya)	priya.sharma@demo.mail
University Officer	international@metrouni.demo
Student (Maria)	maria.santos@demo.mail
Clinic Admin	admin@citywellness.demo
Verification Officer	verify@digipermit.demo
Immigration Officer	compliance@digipermit.demo
Manager / Auditor	audit@natcompliance.demo

Verification — copy-paste permit numbers

Demo story	Permit number	Expected result
Valid employee	WP-2024-ACME-001	Valid (James)
Expiring soon	WP-2024-ACME-002	Expiring soon (Priya)
Expired	WP-2023-ACME-003	Expired
Revoked	WP-2024-ACME-004	Revoked
Study visa	SV-2024-METRO-001	Valid (Maria)
Pending immigration	MT-2024-CLINIC-001	Pending verification
Not in system	WP-9999-FAKE-001	Not found

QR manual entry (if camera fails): DIGIPERMIT:WP-2024-ACME-001

RFID simulation: tag RFID-ACME-001 (matches WP-2024-ACME-001)

Passport numbers (seed employees)

Person	Passport	Login
James Okonkwo	FN88291034	james.okonkwo@demo.mail
Priya Sharma	FN77382910	priya.sharma@demo.mail
Maria Santos	FN66473829	maria.santos@demo.mail
Ahmed Hassan (clinic)	FN44655647	—
Chen Wei (student)	FN55564738	—

All seeded permit numbers

Acme Global (work permits)

- WP-2024-ACME-001 — active
- WP-2024-ACME-002 — expiring soon
- WP-2023-ACME-003 — expired
- WP-2024-ACME-004 — revoked
- WP-2025-ACME-005 — rejected
- PR-2024-ACME-001 — renewal in progress

Metro University

- SV-2024-METRO-001 — active
- SV-2024-METRO-002 — expiring soon
- VV-2024-METRO-001 — visitor, active

City Wellness Clinic

- MT-2024-CLINIC-001 — pending verification

4. Suggested 60-second verification demo

1. Log in as `verify@digipermit.demo`
2. **Manual Lookup** → `WP-2024-ACME-001` → show **Valid**
3. Same screen → `WP-2023-ACME-003` → show **Expired**
4. **QR Scan** → open James's QR on a phone, or paste `DIGIPERMIT:WP-2024-ACME-001`

5. Printable sample permits (same look as the app)

Pre-generated **digital permit cards** (green header, QR, disclaimer banner) — use for props or phone screenshots during QR demo:

File	Person / permit
docs/demo-permits/WP-2026-ACME-101-NEW-EMPLOYEE.pdf	New demo employee
docs/demo-permits/WP-2024-ACME-001-JAMES-OKONKWO.pdf	James — valid scan
docs/demo-permits/WP-2024-ACME-002-PRIYA-SHARMA.pdf	Priya — expiring soon
docs/demo-permits/SV-2024-METRO-001-MARIA-SANTOS.pdf	Maria — study visa
docs/pdf/DEMO-SAMPLE-PERMITS.pdf	All of the above in one PDF

Regenerate: `python scripts/generate-demo-permit-pdfs.py`

After HR captures a new permit in the app, the employee can also open **My Permits** → **View Permit Document** for the live on-screen version (identical layout).

6. Organisation prefix guide (new permits)

Organisation	Permit prefix example
Acme Global (employer)	WP-2026-ACME-###
Metro University	SV-2026-METRO-###
City Wellness Clinic	MT-2026-CLINIC-###

DigiPermit — Academic capstone project. Fictional data for demonstration only.
