

DigiPermit Demo Script

Demo Credentials

Password for all demo users: Demo@12345

Role	Email
System Admin	admin@digipermit.demo
Employer HR	hr@acmeglobal.demo
Foreign National (Employee)	james.okonkwo@demo.mail
Foreign National (Employee 2)	priya.sharma@demo.mail
University Officer	international@metrouni.demo
International Student	maria.santos@demo.mail
Clinic Admin	admin@citywellness.demo
Verification Officer	verify@digipermit.demo
Immigration Officer	compliance@digipermit.demo
Manager/Auditor	audit@natcompliance.demo

Demo Permit Numbers

Permit Number	Status	Use Case
WP-2024-ACME-001	Active/Valid	Valid verification demo
WP-2024-ACME-002	Expiring soon	Expiry countdown demo
WP-2023-ACME-003	Expired	Expired verification demo
WP-2024-ACME-004	Revoked	Revoked verification demo
SV-2024-METRO-001	Active	Study visa demo

Live QR Code Demo (real camera scan)

DigiPermit generates a **scannable QR code** on each permit card. The QR encodes the value stored in the database (e.g. DIGIPERMIT:WP-2024-ACME-001).

Employee side

1. Log in as `james.okonkwo@demo.mail`
2. Open **My Permits** → select a permit → **Digital Permit** page
3. Show the **QR code image** on screen (or print/screenshot it)

Verification officer side

1. Log in as `verify@digipermit.demo`
2. Open **QR Scan** (Verification menu)
3. Click **Start Camera Scan** — allow camera when prompted
4. Point the camera at the employee's QR code on another device/screen
5. System verifies in real time and shows Valid / Expired / Revoked

Tip for presentation: Open James's QR on a phone; scan with the verification officer laptop webcam.

These are **fictional compliance records**, not official government permits.

23-Step Demonstration Flow

1. **Log in as HR Officer** (`hr@acmeglobal.demo`)
2. Navigate to **Foreign Employees** → Register a new employee (or view existing)
3. Navigate to **Permit Records** → Capture a work-visa record
4. **Log out** → **Log in as Foreign National** (`james.okonkwo@demo.mail`)
5. View **My Dashboard** → see permit summary
6. Open **My Permits** → select a permit
7. View **Digital QR Code** page
8. Observe **expiry countdown**
9. Check **Notifications** for expiry reminders
10. **Log out** → **Log in as Verification Officer** (`verify@digipermit.demo`)
11. Open **Manual Lookup** → enter `WP-2024-ACME-001` → show **Valid** result
12. Verify expired permit: `WP-2023-ACME-003` → show **Expired** result
13. Show alert generation (automatic on scan)
14. Verify revoked permit: `WP-2024-ACME-004` → show **Revoked** result
15. Open **RFID Simulation** → device + `RFID-ACME-001`
16. **Log in as System Admin** (`admin@digipermit.demo`)
17. View **Alerts** page → see scan-generated alerts
18. View **Verification Logs**
19. Open **Admin Dashboard** → platform statistics
20. **Log in as University Officer** (`international@metrouni.demo`)
21. View international student study visa monitoring
22. Demonstrate RFID scan via IoT simulation page
23. Open **Power BI** connected to Supabase views (see POWER-BI-SETUP.md)

Important Limitation Statement

DigiPermit is a compliance-monitoring and verification platform. It does not issue official visas or immigration permits, and it does not replace the Department of Home Affairs or any official immigration authority.
